

The Global UASC Task Force Offer of Support

Objective: This document provides an overview of the Offer of Support provided by the UASC Task Force to emergency responses. This document is intended for the relevant Child Protection Coordination body in-country (ex. CP AoR, CP Sub-working Group, UASC TF).

Our Mission: To enhance the protection of unaccompanied and separated children in situations of conflict and natural disaster, through strengthening and harmonising both prevention and response to family separation and the needs of Unaccompanied and Separated Children in terms of Family Tracing and Reunification, as well as temporary care while durable solutions are pursued. The UASC Task Force provides technical material and support to guide policy development, advocacy, communication, programming and resource mobilisation in addressing all cases of family separation.

Our Priorities

- Ensure that technical standards and tools for UASC programming reflect the latest evidence, and feedback from all relevant actors, including other sectors and local partners.
- Increase the ability of actors at all levels and contexts, particularly local actors, to access existing technical tools and knowledge on UASC in humanitarian contexts.
- Facilitate the coordination, participation and contributions of all UASC TF members as well as efficient collaboration between other groups and entities internal and external to The Alliance.
- Provide timely responses to all questions and issues addressed to the UASC TF.
